Your social experience

A big part of the student experience happens outside of lecture halls and tutorials! There is always more to learn than what is being taught. That's why we encourage you to join in with the variety of student activities, clubs and societies and volunteer with one of our many initiatives. Meet new people, have new experiences and make your own mark on MSA. Where possible, we try to give you the opportunity to arrange your lectures around your life, so that you can make the most of your time as a student and ensure that you also have some fun!
